Our camps are designed to build confidence, friendships and outdoor skills - and offer some of the most positive formative experiences in a young person's life. Overnight Camps are a perfect opportunity for kids to safely put their skills to the test. What your kids learn with us are truly helpful life skills that will travel with them far beyond the camp experience.

Increasingly, the only adults in a child's life are their parents and teachers. At Overnight Camp kids have the opportunity to form a true friendship with an adult who sees your child as a learner and builder of things, ideas and choices. This kind of mentoring relationship allows kids to learn and grow and we believe it is an essential part of a healthy learning community.

Camp builds resilience and pushes kids out of their comfort zone as they get to take appropriate risks, make judgment calls on their own and experiment with what works and what doesn't. Overnight Camp is a safe first step toward self-reliance and independence.

Instead of a rigid structure, we give our campers choice. Instead of teaching kids the typical way, we give them tools and gentle guidance to help them become autodidacts. There are a gazillion ways for kids to design a day at camp. One camper might dive into cooking and animation while another rock climbs before playing in our inflatable soccer stadium. It's up to them. The schedule of the day is designed to create a balance of free choice, all-camp spirit events and times where kids take a break from the action to get to know each other and their counselors.
